to me

To whom it concerns,

For many years I have enjoyed free access to the banks of the Shannon in & around Doonass.

Having worked in the Care Sector & being a front line worker during the current pandemic I have found that reduced access to this are to be profoundly upsetting. I call on Clare County Council in the next County Development Plan to give unfettered access to the community to the areas we have enjoyed with our families for generations.

To deny access by slight of hand which has happened in the recent past will reflect badly on us as a community & our elected officials as a whole for allowing our access to be denied.

Best regards,

Victor Brown
