

I would like to stress my strong objections to the blocking of the "Gate Mite Ferlie" gateway and right of way along the Waterfront at the Anglers Rest premises and land area by the Owners/Residents of the Anglers Rest.

This right of way and scenic walkway along the bank of the River Shannon has been and remains to be one of Clontarf Village's most picturesque and beautiful natural and valued amenities. It is an area that has been valued and appreciated by the resident and visitors for generations past and present.

I grew up in Clontarf and have always had a love for this area for its history and its nature flora and fauna. I have instilled this same love in my own children who enjoy going for treks and explorations along the river.

To have this wonderful amenity taken away from us is completely unfair and a crime to all the residents young and old who so appreciate this area.

The Gateway has to remain open for use by everyone
