I would like public access to the Shannon at the entrance from the house that was a pub called anglers rest in Doonass, clonlara , county Clare.

I was born, bred and raised in this area. My kids are now being reared here. I proposed to my American wife at the falls of Doonass , we accessed this lovely site from the cheat mile failure gates which are now locked. Is this progress? My parents, my grandparents, my relations, my good neighbours are kind hard working people. Please do not abandon us and help us give the next generation the simple pleasures, the closeness to nature by allowing us access to walk peacefully through the cheat mile faulted gates. Yours truly,
Arthur stritch, [REDACTED]
