To whom it may concern

I would like to request that in the Map for the Cree Area that the purple area of land marked ENT2(enterprise) be rezoned to mirror its adjoining land VGA1. I own the land and as it is the only area of land that I own with road frontage I would in time like my children to be able to build their homes in the area. I have 4 young children under 6 at the moment with one currently attending school in the primary school across the road. I would appreciate Clare county Council looking favourably at my request zone this field as VGA1.

Regards
