

**BOSTON COMMUNITY CHILDCARE GROUP submission**

Boston Community Childcare Group have been providing Community Childcare in the Village of Boston since 2012 .As encouraged by the County development plan we are situated in Boston Village to be as near to residential areas as possible. We are facilitating parents in a wide catchment area to take up employment and indeed have employed 2-3 people for ten years .

We are disappointed that in the draft plan we are not mentioned by word or indeed location on the map .Please see attached map with location of Boston Community premises outlined for required amendment to community zone(x shows our premises behind All Saints Church )

We fully support the plan’s general objective for sustainable village growth

We would hope that the Council would support other activities in the village along with the mentioned agri tourism .

We support the Village Growth areas and believe that the promotion of our service will tie in with your strategy of supporting small scale community services and facilities. Indeed we have had the foresight to obtain planning permission from yourselves for community meeting rooms.

We have established close links to the Boston Tidy towns group over the last 7 years and will continue to work together for betterment of our village

On a final note we would love an updated photograph to reflect the vibrancy of Boston Village .

Olivia Dillon

On behalf of Boston Community Childcare Group
