Corofin village as an ACA needs to be stricter with regards to signage. The 2021 Village Paint Scheme is ongoing and is not completed as of mid March 2022. We need to look after our current open spaces and retain what we have. Also it needs to be determined what an open space means in a small village. These areas contribute hugely to the overall character of Corofin village and there are not many left. We are fortunate to have various wildlife in the village and we need to protect their habitats...bats, foxes etc. In this climate emergency we must protect current scrub lands, seasonal lakes, trees and our native hedgerows. Sadly we have lost too much

already. The Lachán or Loughaun should be a protected area...SPA or SAC?Do we know why it isn't?What a gem to have within the village as a safe haven for wildlife and biodiversity. Can I also point out that Tou1 on the map is no longer a tourism area but a residential area. Some of our protected structures need to be looked after way better also.
