**2040  
Submission**

**Clare Co Development Plan**

**Shannon Estuary & Atlantic Coast  
for Leisure**

That Clare County Council develop a number of Tidal Pools along the River Shannon and parts of the Clare coast for the recreation and development close to villages and Towns for the use of communities.

Tidal pools fill up with seawater at every high tides. As the tide drops and the sun heats the water creating Caribbean like swimming conditions (minus the white sand.)

Isolated from the dangers of currents and crashing waves, these tidal pools are ideal for families.

Can be developed with for education and training in Water Sports.

Mary Mather Leahy
