### **Your Submission**

I wish to submit support for the proposal by planners in the new development plan for 2023 - 2029 to re-zone the indicated land (behind Woodstock View) from 'residential' to 'agricultural'. Residential development in this area is not in line with current planning recommendations that no additional large areas of land be used for residential development and that development in this neighbourhood would only focus on consolidation of the existing pattern of development by the development of infill sites. The council's strategic vision for Ennis is for it to become a compact 10-minute town. The low density housing likely to be developed here is totally out of line with this strategy which seeks a reduction in these types of development. Our area cannot bear an increase in local traffic where the egress to main roads is already stretched to the point of not being fit for purpose.
