Your Submission

I am sending this submission to object to the proposed changes to land use of a site on Station Road, Lahinch. the site is currently designated as open land but there may be a proposal to convert site to residential use. The site in question is located on Station Rd Lahinch, fronting Summercove Estate. It is a small , elongated site, totally unsuitable for residential development. I believe that any residential development on this site would be disadvantageous to the appearance of the town, it would make this arear look very over-developed, taking away from the charm and tourist attraction of the town. Furthermore, using this area for housing would hinder any future potential for pedestrian or cycleways that could enhance this area. More importantly, this area is one of the few uncultivated hedgerow areas in Lahinch, and is home to many species of birds and insects,.
