

Map detail, adapted from: [Draft Clare County Development Plan 2023-2029: Volume 2 Maps, Map E: Renewable Energy Strategy.](#)

This would relieve the pressure of the threat of additional turbine noise and shadow flicker on hundreds of residents in this area. Existing wind farms impacting this area are:

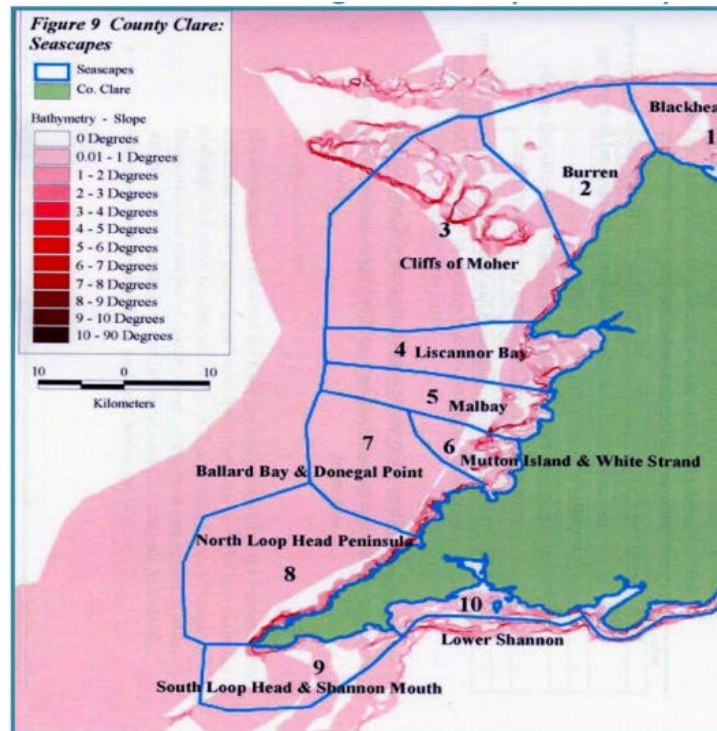

- Booltiagh Wind Farm I - 13 turbines
- Booltiagh Wind Farm II - 6 turbines
- Boolynagleragh Wind Farm - 18 turbines
- Cahermurphy I Wind Farm - 4 turbines
- Kiltumper Wind Farm - 2 turbines
- Slievecallan Wind Farm (East and West) - 29 turbines

It would also safeguard the protected views from Designated Scenic Route 15 (R474 from Connolly to Miltown Malbay), located in a settled landscape.

Approximate location of area (yellow-highlighted) in relation to Scenic Route 15 (R474 from Connolly to Miltown Malbay). Map detail, adapted from: [Draft Clare County Development Plan 2023-2029: Volume 1 Written Statement, Map 14A: Landscape Designations.](#)

Existing views from this route include those of Seascapes Character Areas nos. 4, 5, 6 and 7 as well as views from and of Doolough Lake (see map below). This way, objective CDP14.2.III for settled landscapes would be met: 'Regard being had to the need to avoid intrusion on scenic routes and on ridges or shorelines.'

Map detail, [Draft Clare County Development Plan 2023-2029: Volume 1 Written Statement](#),
 Figure 14.3: Map of Seascape Character Areas.

We hope that you will consider our proposal.

Regards,

Residents of the area:
