Subject: Submission to draft of the County Development Plan

To whom it may concern,

I am writiing to express my concern about the proposal in Ennis 2040 to put a boardwalk on the Post Office Field.

The field is wonderful as it is - a home to the flora and fauna that are on it. It is the last field in the centre of Ennis, and the wildlife that live on it and visit it enjoy the freedom to exist away from the encroachment of humans. We should not bring large numbers of people onto their field. Nature is under threat and huge numbers of species are becoming extinct. We do not need to build something on every blade of grass.

Since the council own the field, I would like you to find a way to protect it, primarily in the interests of the animals, insects, birds and bees etc. They are obviously unable to express their wishes to be left alone by making submissions themselves. Secondly, we should preserve it for our children and grandchildren and future generations to admire and celebrate from a distance.

Please leave the Post Office Field alone.

yours faithfully,

Martin Vernon.
