Re: Clare County Council Development Plan 2023-2029

To whom it may concern,

I Mrs Helen Walsh owner of lands on Fort Road Cappa, formally make a submission to change the proposed zoning of lands identified below from open space to residential.

It is the intention that this land to be developed in the near future as residential. It has been identified to me that lands at R2 currently zoned residential have been requested to be changed to agricultural. The change of R2 from residential to agricultural will allow sufficient zoning of my lands.

Regards

Helen Walsh
