

Submission NO: 151

6<sup>th</sup> class Room 19  
Holy Family Senior  
Station Road  
Ennis.

16/11/20

Dear Ms. Bristlane,

We in Mr. Bell's 6<sup>th</sup> class in Holy Family Senior School would like to submit our views in relation to the upcoming County Development Plan review. We have considered the needs of Ennis under the suggested headings below:

### Community and Recreation

First of all there are many people in this class who enjoy skating or hiking and would like a bigger and better skatepark. Secondly we would like more green areas for soccer, hurling, rugby and much more. And finally more playgrounds for some of us who live on the other side of town.

### Transport

Transport is very important and is getting better by the year so some of us are considering buying electric cars but are worried there are not enough charge points so we ask you to provide more. Many of us own bikes and like to cycle them but there are very few cycle lanes near our area so

We ask you to make more. And lastly some of us don't own cars so we want more bus stops near our area.

### Culture and History

Our town needs a better museum or historical place that we can go to to learn and have fun at the same time. We could also use some little historic monuments that will catch your eye.

### Environment and Climate Change

In our town there is a few bottle banks that are in the center of town, we need more of them in different locations and they need to be emptied more often because when they're full people leave their rubbish next to it and it gets scattered everywhere by the wind. We also need a swap center where you can reuse without having to break it down. But most importantly we need more trees.

We hope that you find our ideas useful and trust that you will give our views due consideration as you plan ahead for the future of our beautiful town. Thank you for taking the time to read our submission.

Yours sincerely,  
Ciarián Biswas

(on behalf of Mr. Bell's 6<sup>th</sup> class)
