I am particularly pleased that the Ennis 2040 projects in Abbey St Car Park and Harvey's Quay Car Park are being removed from the County Development Plan. It is important that these public spaces are preserved and further enhanced to increase the attractiveness of the town as a place to live and visit. These spaces should be compatible with a future public transport infrastructure bringing people to the town centre. Equally, these areas should provide a spacious focal point complementing the narrow medieval streets of the town and the River Fergus. Encroachment on civic and amenity spaces should be resisted and should be protected and enhanced for the people. A commitment to this principle would be welcome in the County Development Plan .
